A Wonderful Representation of Passion Play Every Day

This will be one of the biggest attractions of the west this year. No one can afford to miss it. All the big attractions are billed for every day in the week.

Falls of Niagara Every Day—This mad sheet of electric fire, 200 feet wide and 100 feet high—true to nature in every respect—is one of the wonders of electrical science. You can hear it roar, and see it rushing and seething with bewildering fury.

In Payne's Famous \$5,000 Fireworks Display-You can laugh until your sides ache at the extraordinary pyrotechnic elephant and the acrobatic monkey. It is a feast for the children. The solar system on fire and General Funston's portrait, will be pyrotechnic features never seen outside of Manhattan Beach, where they attracted hundreds of thousands of people during

Dare-Devil Kilpatrick's Thrilling Ride

This will be given three times each day. You know what it is-a run down an inclined plane from a height of eighty feet in an automobile. This is reputed to be the most daring feat ever attempted by mortal man. This feature alone will cost the Carnival Association over \$1,000.

Mad run by the Wichita Fire Department, with spectacular illuminations. Mammoth industrial display; merchant's display in fantastically decorated Chinese pagodas; bands from all over the country.
